What would Thomas Edison's physician have prescribed for a headache?

(and would insurance
have covered it?)

In 1879, Thomas Edison had worked for over a year and conducted hundreds of experiments to find the right substance to use as the heart for his new idea: the incandescent electric light.

Finally, Edison discovered that a carbon filament in a vacuum produced a good deal of light when an electric current passed through it. He introduced the electric light bulb to the world a short time later.

Inventing the light bulb was no easy task. If Edison suffered headaches working on his bright idea, he would have had to wait another 14 years before he could have taken acetylsalicylic acid for relief.

You see, it wasn't until 1893 that Hermann Dreser introduced aspirin to medical science.

Back then, the expense for medication, prescribed or otherwise, came out of the sufferer's pocket. And the only insurance available — accident coverage — did not cover illness.

Today, as a member of the North Carolina Medical Society, you can get protection like Disability Income

for younger doctors. It provides you a regular monthly benefit when sickness or injury keeps you from your practice. And you can use your benefits any way you wish — to buy groceries, make house payments or provide for your children's education.

With Mutual of Omaha's Disability Income Protection, a disabling sickness or accident no longer (as in Edison's day) means total financial dependence on family and friends.

If you're under the age of 55 and are active full time in your practice, contact your local Mutual of Omaha service representative and ask about the Disability Income Protection plan. Your representative will make sure that you personally receive the full details of coverage. Of course, there's no obligation.

Seventy-five years ago, a man named Royce set out to build a legend by hand.

The legend-to-be was Frederick Henry Royce's dream of a motor car.

It was to be built by hand and built to go on and on, smoothly, quietly, efficiently.

And it was to be built by him.

The year was 1904. And the first masterpiece he built was not a Rolls,[™] but a Royce.

Three years later, Henry Royce, the engineer who preferred to be called a mechanic, and Charles Rolls, the aristocrat who preferred to be called a driver, introduced the Rolls-Royce Silver Ghost. A six-cylinder, 40-50 hp motor car of silver-plated metals and aluminum finish, the Silver Ghost proved, in one long-distance trial after another, that it was unlike any other motor car in the world.

It still is. For, contrary to a popular belief, Henry Royce built but one Silver Ghost. And, after 72 years and well over half a million miles, it continues to drive on, a gleaming symbol of the standards every Rolls-Royce must meet before it passes through the Rolls-Royce gates.

The Rolls-Royce Silver Ghost is not for sale, but we invite you to either purchase or lease a new Rolls-Royce masterpiece.

We are one of the select dealerships appointed by Rolls-Royce Motors. And this means that we stand behind Rolls-Royce and Rolls-Royce stands behind us.

The names "Rolls-Royce" and "Silver Ghost" and the mascot, badge and radiator grille are registered trademarks.

They did some of their best work after 50 years.

Blue Cross & Blue Shield Plans hope to do the same.

Many nations lay claim to a father of their country. But how many can boast of having a grandmother? The state of Israel was led through seven years of war and peace by a former schoolteacher, and a grandmother in her 70s, Golda Meir.

There are many people who have led active and productive careers throughout their lives. And even some who have made dramatic achievements long after other people might have become complacent and sedentary.

This year, we commemorate the 50th Anniversary of the Blue Cross & Blue Shield concept. And we remember some of these remarkable individuals and their accomplishments.

The health care system in America has seen many innovations in the last 50 years. And at Blue Cross and Blue Shield Plans, we are proud of our contributions. But we face an even greater challenge in the next 50 years. We must work toward controlling the cost of health care so that quality care never becomes a luxury.

At Blue Cross and Blue Shield Plans we look to the achievements of these people as a reminder to never stop trying. Our best work should be our next.

When he was 90, the great Greek tragic poet Sophocles wrote his final story of Oedipus.

After serving as a U.S. delegate to the U.N. when she was 55, Pearl Bailey is now a full time undergraduate at Georgetown University.

The very popular American painter, Norman Rockwell, never lost his sense of humor or humanity throughout his long career.

Committee and Commission Appointments 1979-1980

NOTE: The Committees listed herein have been authorized by President J. B. Warren, M.D., and/or as required under the *Constitution and Bylaws*.

Particular note should be taken of the authorization of the HOUSE OF DELEGATES of a Commission form of organization activity and that all Committees, excepting COMMITTEE ON NOMINATIONS and MEDIATION COMMITTEE and COUNCIL ON REVIEW AND DEVELOPMENT are segregated under the respective Commission in which the function of the Committee logically rests. This will tend to eliminate overlapping and duplication in activity programs and result in coordination of the work of the Society in a manner to lessen the work of the Delegates in the Annual Meeting of the HOUSE OF DELEGATES.

(Superior figures (e.g. 21) indicate the component County Society from which the member emanates, as in the Membership list of the ROSTER.)

Physician: Concentrate on a practice that concentrates on medicine.

You don't have to be a lawyer to be a physician in the Army. Army physicians concentrate on medicine, not business administration. Army physicians are full-time physicians, supported by commissioned officer nurses aided by skilled medical corpsmen. Therefore, Army medicine requires America's best physicians.

As an Army officer, you receive substantial compensation, extensive annual paid vacation, a remarkable retirement plan, and the freedom to practice without endless insurance forms, malpractice premiums, and cash flow worries. Everything is calculated to make it as easy as possible for you to be a good physician. If that is what you want to be, join the physicians who have joined the Army.

Army Medicine:

The practice that's practically all medicine

INFORMATION

Thoms Rehabilitation Hospital serves the physically handicapped with the latest rehabilitation techniques and programs designed to meet the needs of the individual patient.

The patient is evaluated and assigned the combination of therapies felt best able to accomplish his goals, whether they be independent living or return to gainful employment.

At Thoms we deal with the patient as a whole person. In addition to an active therapy regime to overcome his physical disability, other programs coordinate to serve personal, spiritual, recreational, community, family and employment needs.

Our pediatric patients have the advantage of being able to continue their education at a school specially designed for handicapped children while undergoing therapy.

We have programs to serve patients with amputations, spinal cord injuries, cerebrovascular accidents, speech and hearing defects, cerebral palsy or any other physical disability who demonstrate potential for rehabilitation.

* Currently in the planning stages are programs for Cardiac Rehabilitation and Rheumatoid Arthritis.

How much is "too much" milk?

Milk, like many foods today, is being looked at much more closely than ever before by physicians and nutritionists.

And well it should be.

Because we recognize that too much milk, like too much of any one food, can fill a child up and consequently, can keep him from eating other foods he needs. Particularly, iron-rich foods.

But let's also make sure children get enough milk. Because milk supplies more essential nutrients per calorie than most other foods.

A child between the ages of six months and six years, for example, can get at least three-fourths of his daily dietary allowance for calcium, riboflavin, vitamins D and B₁₂, phosphorus, and protein from just three glasses of milk. And milk is also a good source of vitamins A and B₆, as well as thiamin and niacin.

That's why the U.S.D.A., acting on the recommendation of the National Research Council—National Academy of Sciences, has established these guidelines for milk consumption:

Children up to 6 years

Two to three 8 oz. glasses per day.

Children 6 to 12 years

Three or more 8 oz. glasses per day.

Per cent of Recommended Daily Allowance contributed by three 8 oz. glasses of fortified milk.

5 mos.—1 yr. 1 yr.—3 yrs. 3 yrs.—6 yrs.

	100%	100%	100%
Calcium	100%	100%	100%
Riboflavin	100	100	100
Vitamin B ₁₂	100	100	100
Protein	100	111	80
Phosphorus	100	35	75
Vitamin B ₆	75	51	34
Vitamin D	75	75	75

Thiamin	56	40	31
Vitamin A	46	46	37

Milk. Sometimes we forget all the good things it does.

Think Inc.

To incorporate or not to incorporate? Maybe that's not the real question. After all, you've probably heard it's a nice opportunity. That is, you can take advantage of the liberal tax treatment available to corporations through qualified pension or profit sharing plans.

So perhaps the more significant question is where to go for assistance. Perhaps you should go right to the top.

New England Life writes more individual pension plans than the two next companies combined. In fact, we were helping physicians, attorneys, and accountants, to name three, solve complex financial problems long before the professional corporation came along. And our associates' experience in this field, together with their reputation among professionals, is a matter of record.

Furthermore, the plans they can offer you and your professional advisers are pre-approved by the IRS and afford the kind of flexibility necessary to develop a program to meet your needs exactly.

For instance, you have freedom in determining plan contributions or benefit levels. You can wait until retirement to pick your form of payment. And working with one of our associates, you can choose from a variety of vehicles to supplement your plan's objectives.

To incorporate or not to incorporate—think about it. And then if you do think of us,
